Salient Federal Solutions Awarded United States Air Force WRAP Contract

Program will help defend Air Force Networks from costly cyber attacks

Fairfax, VA, September 16, 2011 – Salient Federal Solutions (Salient), a leading provider of information technology, engineering and intelligence analysis services, today announced it has been awarded a multi-year prime contract to implement its Assure6™ product suite, the only cyber security policy manager to detect and block malicious IPv6 attacks, to help secure the United States Air Force's information technology systems.

"We look forward to partnering with the Air Force to meet the US Government's goal of securely implementing Internet Protocol version 6 (IPv6) by 2014," said Salient's cyber security leader Lisa Donnan. "Our Assure6™ intrusion prevention system will help mitigate the vulnerabilities of implementing IPv6 and ultimately protect mission critical networks."

The DISA ENCORE II contract award was made as part of the Warfighter Rapid Acquisition Program (WRAP). Salient will work to protect the Air Force from threats generated by the requirements of legacy networks and devices to support the future IPv6 standard. Assure6 is an innovative deep packet inspection (DPI) security protection system being deployed in multiple Department of Defense (DoD) agencies. It is now the most trusted government intrusion prevention and detection system that safeguards IPv6 traffic

"It takes a new breed of industry partner to help government agencies address the risks and opportunities of an abruptly changing world," said Bill Parker, Salient COO. "Salient's cyber security technology and experienced security professionals look forward to working with the Air Force to help them address the challenges of today and tomorrow."

About Salient Federal Solutions

Salient Federal Solutions (now including SGIS & Command Information Inc.) is a leading provider of Federal IT and engineering solutions that enable government and industry to respond quickly to new or surge mission requirements with exactly the right people, skills, expertise and technical solutions. The company works to accelerate mission impact by delivering highly adaptable technology services, engineering solutions, and domain expertise that enable customers to rapidly meet the pressing requirements of today, while anticipating tomorrow's evolving challenges. Salient Federal Solutions is headquartered in Fairfax, VA, with offices in Charlotte, Colorado Springs, Orlando, San Diego and Tampa. For more information visit www.salientfed.com.
